Maximum: 100 marks

Time: 1 hour and 15 minutes

1.	The first	temple consecrated by Sree Nara	yana Guru v	was at
	(A)	Aruvippuram	(B)	Varkkala
	(C)	Chempazhanthi	(D)	Sivagiri
2.	The book	not related to Vagbhatananda :		
	(A)	Atma Vidya	(B)	Iswara Vicharam
	(C)	Moksha Pradeepam	(D)	Manasa Chapalyam
3.	Ashtamu	di Kayal is flowing through :		
	(A)	Pathanamthitta	(B)	Kasargodu
	(C)	Thiruvananthapuram	(D)	Kollam
4.	Sadujana	Paripalana Sangam was founde	d by:	
	(A)	Dr. Palpu	(B)	Ayyankali
	(C)	Ambedkar	(D)	Phule
5.	The name	e of Pre Monsoon Summer Rains	of Kerala :	
	(A)	Tornado	(B)	Mango Shower
	(C)	Norwesters	(D)	The Loo
6.	Black soil	l is found in :		
	(A)	Kottarakkara	(B)	Kappadu
	(C)	Paravur	(D)	Chittur
7.	Who was	known as Kerala Lincoln?		
	(A)	K. Kelappan	(B)	K.P. Kesava Menon
	(C)	Pandit K.P. Karuppan	(D)	N. Krishna Pillai

8.	Headquai	rters of Kerala Forest Developm	ent Corporat	ion is at :
	(A)	Thiruvananthapuram	(B)	Kottayam
	(C)	Wayanadu	(D)	Pathanamthitta
9.	The only	poet in Malayalam who became	Mahakavi w	ithout writing a Mahakavyam :
	(A)	Vallathol	(B)	Changampuzha
	(C)	Kumaranasan	(D)	Cherussery
10.	The Foun	der and Publisher of the newsp	aper Swadesh	nabhimani:
	(A)	Ramakrishna Pillai	(B)	Vakkom Moulavi
	(C)	Abdul Rahman Saheb	(D)	Balakrishna Pillai
11.	Who is kn	nown as Father of Local Self Go	vernment?	
	(A)	Lord Cornwallis	(B)	Mountbatten
	(C)	Lord Rippon	(D)	Lord Litton
12.	Which is	known as Science City of India?		
	(A)	Delhi	(B)	Mumbai
	(C)	Hyderabad	(D)	Kolkatta
13.	First wom	nen receive Bharat Ratna :		
	(A)	Indira Gandhi	(B)	Sarojini Naidu
	(C)	Aruna Asafali	(D)	Latha Mangeshkar
14.	World Pop	oulation Day celebrated on :		
	(A)	June 11	(B)	July 11
	(C)	Sept. 21	(D)	Jan. 21
15.	"Planned	Economy of India" was written	by:	
	(A)	Dr. Homi J. Bhaba	(B)	R.C. Dutt
<b>*</b>	(C)	Dadabhai Naoroji	(D)	M. Visveswarayya
16.	How man	y gold medals did Kerala won ir	National Sc	hool Athletics meet in Ranchi?
A.	(A)	40	(B)	35
	(C)	28	(D)	38
38/2	014		4	

17.	7. Which Bollywood Actress has honored in the House of Commons, London:			Commons, London:
	(A)	Kareena Kapoor	(B)	Kajol
	(C)	Karishma Kapoor	(D)	Maneesha Koyrala
18.	In which s	state is the Election comm system for the first time i	nission planning to n the country?	use Voter Verifiable Paper Audit Trial
	(A)	Bihar	(B)	Nagaland
	(C)	Kerala	(D)	Karnataka
19.	Nouri-Al-	Maliki Prime Minister of	recen	ntly visited India.
	(A)	Iran	(B)	China
	(C)	Iraq	(D)	Korea
20.	Last Test	Match in Sachin Tendulk	ar's career was hel	dat:
	(A)	Calcutta	(B)	Kochi
	(C)	Mumbai	(D)	Delhi
21.	The wave	es used in telecommunicat	tion is:	
	(A)	infra red	(B)	ultra violet
	(C)	microwaves	(D)	cosmic rays
22.	Photo ele	ctric effect can be explain	ed on the basis of :	
	(A)	Quantum theory	(B)	Corpuscular theory
	(C)	Wave theory	(D)	Electromagnetic theory
23.	After two	hours $\frac{1}{16}$ th of the radio a	ctive isotope remain	s undecayed. Half life of the isotope is :
	(A)	12 minutes	(B)	45 minutes
	(C)	One hour	(D)	30 minutes
24.	Light yes	ar is the unit of:		
	(A)	Time	(B)	Distance
	(C)	Speed	(D)	Mass
			*	

25.	A good in	sulator of heat is:		
	(A)	copper	(B)	mercury
	(C)	trapped air	(D)	iron
26.	The lines	r product obtained by the	condensation poly	merization of phenol and formaldehyo
	(A)	Nylon 6, 6	(B)	Bakelite
	(C)	Novolac	(D)	Melamine
27.	The Mice	lles (associated colloids) are	formed only abo	ve a particular temperature called :
	(A)	Curie temperature	(B)	Kraft temperature
	(C)	Boyle temperature	(D)	Critical temperature
28.	The meth	od used for refining semico	nductors known a	is:
	(A)	Van Arkel method	(B)	Mond process
	(C)	Electrolytic refining	(D)	Zone refining
29.	Which of	the following is known as 's	yngas'?	
	(A)	$CO + H_2$	(B)	$CO + N_2$
	(C)	CO + Cl <sub>2</sub>	(D)	$CO + O_2$
30.	Which of t	he following hydride can ac	t as a Lewis acid	?
	(A)	HF	(B)	$\mathrm{B_2H_6}$
	(C)	NH <sub>3</sub>	(D)	CH <sub>4</sub>
31.	Pollen gra	ins in the angiosperm repre	esent:	
	(A)	Male gamete	(B)	Microsporophyll
	(C)	Microsporangium	(D)	Male gametophyte
32.	Which of t	he following hormones owes	s its discovery to	tissue culture technique?
	(A)	Auxin	(B)	Cytokinins
	(C)	Abscisic acid	(D)	Gibberellin
	1857			

(A) Manila (C) Tokyo (D) New York  34. Biopesticides are produced by: (A) Pseudomonas Sp. (C) Bacillus thuringiensis (D) Agrobacterium tumefaciens  35. Which one of the following gymnosperm is said to have double fertilizations? (A) Ephedra (B) Pinus (C) Ginko (D) Cycas  36. A phylum with pseudocoelom: (A) Platyhelminthes (B) Annelida (C) Aschelminthes (D) Arthropoda  37. The British ecologist who tested the hypothesis of 'Industrial melanism': (A) Alexander von Humboldt (B) Barnard Kettlewell (C) Hugo de Vries (D) Charles Darwin  38. The lobe of the brain that can decode and interpret visual information: (A) Frontal (B) Parietal (C) Temporal (D) Occipital  39. After ovulation corpus luteum formed in the ovary releases: (A) Progesterone (B) Estrogen (C) Testosterone (B) Estrogen (C) Testosterone (C) Cannabis sativa (D) Papaver somniferum  41. Which of the following is the heat regulating centre in man? (B) Uk, the heat magni	33.	Internation	onal Rice Research Institute is at :		
34. Biopesticides are produced by:  (A) Pseudomonas Sp. (B) Bacillus anthracis (C) Bacillus thuringiensis (D) Agrobacterium tumefaciens  35. Which one of the following gymnosperm is said to have double fertilizations? (A) Ephedra (B) Pinus (C) Ginko (D) Cycas  36. A phylum with pseudocoelom: (A) Platyhelminthes (B) Annelida (C) Aschelminthes (D) Arthropoda  37. The British ecologist who tested the hypothesis of 'Industrial melanism': (A) Alexander von Humboldt (B) Barnard Kettlewell (C) Hugo de Vries (D) Charles Darwin  38. The lobe of the brain that can decode and interpret visual information: (A) Frontal (B) Parietal (C) Temporal (D) Occipital  39. After ovulation corpus luteum formed in the ovary releases: (A) Progesterone (B) Estrogen (C) Testosterone (B) Estrogen (C) Testosterone (C) Testosterone (D) Aldosterone  40. Opioids are obtained from: (A) Claviceps purpurea (B) Erythroxylum coca (C) Cannabis sativa (D) Papaver somniferum  41. Which of the following is the heat regulating centre in man? (A) Liver (B) Cisterna magni		(A)	Manila	(B)	New Delhi
(A) Pseudomonas Sp. (B) Bacillus anthracis (C) Bacillus thuringiensis (D) Agrobacterium tumefaciens  35. Which one of the following gymnosperm is said to have double fertilizations? (A) Ephedra (B) Pinus (C) Ginko (D) Cycas  36. A phylum with pseudocoelom: (A) Platyhelminthes (B) Annelida (C) Aschelminthes (D) Arthropoda  37. The British ecologist who tested the hypothesis of 'Industrial melanism': (A) Alexander von Humboldt (B) Barnard Kettlewell (C) Hugo de Vries (D) Charles Darwin  38. The lobe of the brain that can decode and interpret visual information: (A) Frontal (B) Parietal (C) Temporal (D) Occipital  39. After ovulation corpus luteum formed in the ovary releases: (A) Progesterone (B) Estrogen (C) Testosterone (D) Aldosterone  40. Opioids are obtained from: (A) Claviceps purpurea (B) Erythroxylum coca (C) Cannabis sativa (D) Papaver somniferum  41. Which of the following is the heat regulating centre in man? (A) Liver (B) Cisterna magni		(C)	Tokyo	(D)	New York
(C) Bacillus thuringiensis  (D) Agrobacterium tumefaciens  35. Which one of the following gymnosperm is said to have double fertilizations?  (A) Ephedra (B) Pinus (C) Ginko (D) Cycas  36. A phylum with pseudocoelom:  (A) Platyhelminthes (B) Annelida (C) Aschelminthes (D) Arthropoda  37. The British ecologist who tested the hypothesis of 'Industrial melanism':  (A) Alexander von Humboldt (B) Barnard Kettlewell (C) Hugo de Vries (D) Charles Darwin  38. The lobe of the brain that can decode and interpret visual information:  (A) Frontal (B) Parietal (C) Temporal (D) Occipital  39. After ovulation corpus luteum formed in the ovary releases:  (A) Progesterone (B) Estrogen (C) Testosterone (D) Aldosterone  40. Opioids are obtained from:  (A) Claviceps purpurea (B) Erythroxylum coca (C) Cannabis sativa (D) Papaver somniferum  41. Which of the following is the heat regulating centre in man? (A) Liver (B) Cisterna magni	34.	Biopestici	des are produced by :		
35. Which one of the following gymnosperm is said to have double fertilizations?  (A) Ephedra (B) Pinus (C) Ginko (D) Cycas  36. A phylum with pseudocoelom:  (A) Platyhelminthes (B) Annelida (C) Aschelminthes (D) Arthropoda  37. The British ecologist who tested the hypothesis of 'Industrial melanism':  (A) Alexander von Humboldt (B) Barnard Kettlewell (C) Hugo de Vries (D) Charles Darwin  38. The lobe of the brain that can decode and interpret visual information:  (A) Frontal (B) Parietal (C) Temporal (D) Occipital  39. After ovulation corpus luteum formed in the ovary releases:  (A) Progesterone (B) Estrogen (C) Testosterone (B) Estrogen (C) Testosterone (C) Testosterone (D) Aldosterone  40. Opioids are obtained from:  (A) Claviceps purpurea (B) Erythroxylum coca (C) Cannabis sativa (D) Papaver somniferum  41. Which of the following is the heat regulating centre in man? (A) Liver (B) Cisterna magni		(A)	Pseudomonas Sp.	(B)	Bacillus anthracis
(A) Ephedra (B) Pinus (C) Ginko (D) Cycas  36. A phylum with pseudocoelom:  (A) Platyhelminthes (B) Annelida (C) Aschelminthes (D) Arthropoda  37. The British ecologist who tested the hypothesis of 'Industrial melanism':  (A) Alexander von Humboldt (B) Barnard Kettlewell (C) Hugo de Vries (D) Charles Darwin  38. The lobe of the brain that can decode and interpret visual information:  (A) Frontal (B) Parietal (C) Temporal (D) Occipital  39. After ovulation corpus luteum formed in the ovary releases:  (A) Progesterone (B) Estrogen (C) Testosterone (B) Erythroxylum coca (C) Cannabis sativa (D) Papaver somniferum  41. Which of the following is the heat regulating centre in man?  (A) Liver (B) Cisterna magni		(C)	Bacillus thuringiensis	(D)	Agrobacterium tumefaciens
(C) Ginko  (D) Cycas  36. A phylum with pseudocoelom:  (A) Platyhelminthes (B) Annelida (C) Aschelminthes (D) Arthropoda  37. The British ecologist who tested the hypothesis of 'Industrial melanism':  (A) Alexander von Humboldt (B) Barnard Kettlewell (C) Hugo de Vries (D) Charles Darwin  38. The lobe of the brain that can decode and interpret visual information:  (A) Frontal (B) Parietal (C) Temporal (D) Occipital  39. After ovulation corpus luteum formed in the ovary releases:  (A) Progesterone (B) Estrogen (C) Testosterone (B) Estrogen (C) Testosterone (C) Cannabis sativa (D) Papaver somniferum  41. Which of the following is the heat regulating centre in man?  (A) Liver (B) Cisterna magni	35.	Which one	e of the following gymnosperm is said	to have	e double fertilizations?
36. A phylum with pseudocoelom:  (A) Platyhelminthes (B) Annelida (C) Aschelminthes (D) Arthropoda  37. The British ecologist who tested the hypothesis of 'Industrial melanism':  (A) Alexander von Humboldt (B) Barnard Kettlewell (C) Hugo de Vries (D) Charles Darwin  38. The lobe of the brain that can decode and interpret visual information:  (A) Frontal (B) Parietal (C) Temporal (D) Occipital  39. After ovulation corpus luteum formed in the ovary releases:  (A) Progesterone (B) Estrogen (C) Testosterone (C) Testosterone (B) Erythroxylum coca (C) Cannabis sativa (D) Papaver somniferum  41. Which of the following is the heat regulating centre in man?  (A) Liver (B) Cisterna magni		(A)	Ephedra	(B)	Pinus
(A) Platyhelminthes (B) Annelida (C) Aschelminthes (D) Arthropoda  37. The British ecologist who tested the hypothesis of 'Industrial melanism':  (A) Alexander von Humboldt (B) Barnard Kettlewell (C) Hugo de Vries (D) Charles Darwin  38. The lobe of the brain that can decode and interpret visual information:  (A) Frontal (B) Parietal (C) Temporal (D) Occipital  39. After ovulation corpus luteum formed in the ovary releases:  (A) Progesterone (B) Estrogen (C) Testosterone (D) Aldosterone  40. Opioids are obtained from:  (A) Claviceps purpurea (B) Erythroxylum coca (C) Cannabis sativa (D) Papaver somniferum  41. Which of the following is the heat regulating centre in man?  (A) Liver (B) Cisterna magni		(C)	Ginko	(D)	Cycas
(C) Aschelminthes (D) Arthropoda  37. The British ecologist who tested the hypothesis of 'Industrial melanism':  (A) Alexander von Humboldt (B) Barnard Kettlewell (C) Hugo de Vries (D) Charles Darwin  38. The lobe of the brain that can decode and interpret visual information:  (A) Frontal (B) Parietal (C) Temporal (D) Occipital  39. After ovulation corpus luteum formed in the ovary releases:  (A) Progesterone (B) Estrogen (C) Testosterone (D) Aldosterone  40. Opioids are obtained from:  (A) Claviceps purpurea (B) Erythroxylum coca (C) Cannabis sativa (D) Papaver somniferum  41. Which of the following is the heat regulating centre in man?  (A) Liver (B) Cisterna magni	36.	A phylum	with pseudocoelom:		
37. The British ecologist who tested the hypothesis of 'Industrial melanism':  (A) Alexander von Humboldt (B) Barnard Kettlewell (C) Hugo de Vries (D) Charles Darwin  38. The lobe of the brain that can decode and interpret visual information:  (A) Frontal (B) Parietal (C) Temporal (D) Occipital  39. After ovulation corpus luteum formed in the ovary releases:  (A) Progesterone (B) Estrogen (C) Testosterone (D) Aldosterone  40. Opioids are obtained from:  (A) Claviceps purpurea (B) Erythroxylum coca (C) Cannabis sativa (D) Papaver somniferum  41. Which of the following is the heat regulating centre in man?  (A) Liver (B) Cisterna magni		(A)	Platyhelminthes	(B)	Annelida
(A) Alexander von Humboldt (B) Barnard Kettlewell (C) Hugo de Vries (D) Charles Darwin  38. The lobe of the brain that can decode and interpret visual information:  (A) Frontal (B) Parietal (C) Temporal (D) Occipital  39. After ovulation corpus luteum formed in the ovary releases:  (A) Progesterone (B) Estrogen (C) Testosterone (D) Aldosterone  40. Opioids are obtained from:  (A) Claviceps purpurea (B) Erythroxylum coca (C) Cannabis sativa (D) Papaver somniferum  41. Which of the following is the heat regulating centre in man?  (A) Liver (B) Cisterna magni		(C)	Aschelminthes	(D)	Arthropoda
(C) Hugo de Vries  (D) Charles Darwin  38. The lobe of the brain that can decode and interpret visual information:  (A) Frontal (B) Parietal (C) Temporal  (D) Occipital  39. After ovulation corpus luteum formed in the ovary releases:  (A) Progesterone (B) Estrogen (C) Testosterone  (D) Aldosterone  40. Opioids are obtained from:  (A) Claviceps purpurea (B) Erythroxylum coca (C) Cannabis sativa (D) Papaver somniferum  41. Which of the following is the heat regulating centre in man?  (A) Liver (B) Cisterna magni	37.	The Britis	sh ecologist who tested the hypothesis	s of 'Ind	ustrial melanism':
38. The lobe of the brain that can decode and interpret visual information:  (A) Frontal (B) Parietal (C) Temporal (D) Occipital  39. After ovulation corpus luteum formed in the ovary releases:  (A) Progesterone (B) Estrogen (C) Testosterone (D) Aldosterone  40. Opioids are obtained from:  (A) Claviceps purpurea (B) Erythroxylum coca (C) Cannabis sativa (D) Papaver somniferum  41. Which of the following is the heat regulating centre in man?  (A) Liver (B) Cisterna magni		(A)	Alexander von Humboldt	(B)	Barnard Kettlewell
(A) Frontal (C) Temporal (D) Occipital  39. After ovulation corpus luteum formed in the ovary releases:  (A) Progesterone (B) Estrogen (C) Testosterone (D) Aldosterone  40. Opioids are obtained from:  (A) Claviceps purpurea (B) Erythroxylum coca (C) Cannabis sativa (D) Papaver somniferum  41. Which of the following is the heat regulating centre in man?  (A) Liver (B) Cisterna magni		(C)	Hugo de Vries	(D)	Charles Darwin
(C) Temporal (D) Occipital  39. After ovulation corpus luteum formed in the ovary releases:  (A) Progesterone (B) Estrogen (C) Testosterone (D) Aldosterone  40. Opioids are obtained from:  (A) Claviceps purpurea (B) Erythroxylum coca (C) Cannabis sativa (D) Papaver somniferum  41. Which of the following is the heat regulating centre in man?  (A) Liver (B) Cisterna magni	38.	The lobe	of the brain that can decode and inter	pret vis	sual information :
39. After ovulation corpus luteum formed in the ovary releases:  (A) Progesterone (B) Estrogen (C) Testosterone (D) Aldosterone  40. Opioids are obtained from:  (A) Claviceps purpurea (B) Erythroxylum coca (C) Cannabis sativa (D) Papaver somniferum  41. Which of the following is the heat regulating centre in man?  (A) Liver (B) Cisterna magni		. (A)	Frontal	(B)	Parietal
(A) Progesterone (B) Estrogen (C) Testosterone (D) Aldosterone  40. Opioids are obtained from:  (A) Claviceps purpurea (B) Erythroxylum coca (C) Cannabis sativa (D) Papaver somniferum  41. Which of the following is the heat regulating centre in man?  (A) Liver (B) Cisterna magni		(C)	Temporal	(D)	Occipital
(C) Testosterone (D) Aldosterone  40. Opioids are obtained from:  (A) Claviceps purpurea (B) Erythroxylum coca (C) Cannabis sativa (D) Papaver somniferum  41. Which of the following is the heat regulating centre in man?  (A) Liver (B) Cisterna magni	39.	After ovu	lation corpus luteum formed in the o	vary rel	eases:
40. Opioids are obtained from:  (A) Claviceps purpurea (B) Erythroxylum coca (C) Cannabis sativa (D) Papaver somniferum  41. Which of the following is the heat regulating centre in man?  (A) Liver (B) Cisterna magni		(A)	Progesterone	(B)	Estrogen
(A) Claviceps purpurea (B) Erythroxylum coca (C) Cannabis sativa (D) Papaver somniferum  41. Which of the following is the heat regulating centre in man? (A) Liver (B) Cisterna magni		(C)	Testosterone	(D)	Aldosterone
(C) Cannabis sativa (D) Papaver somniferum  41. Which of the following is the heat regulating centre in man?  (A) Liver (B) Cisterna magni	40.	Opioids a	re obtained from :		
41. Which of the following is the heat regulating centre in man?  (A) Liver  (B) Cisterna magni		(A)	Claviceps purpurea	(B)	Erythroxylum coca
(A) Liver (B) Cisterna magni		(C)	Cannabis sativa	(D)	Papaver somniferum
	41.	Which of	the following is the heat regulating c	entre in	n man?
CONTRACTOR AND ADDRESS OF THE ADDRES		(A)	Liver	(B)	Cisterna magni
(C) Medulla oblongata (D) Hypothalamus		(C)	Medulla oblongata	(D)	Hypothalamus

42.	Dorsalis	pedis is the pulse felt over :	1	
	(A)	Upper limb	(B)	Neck
	(C)	Lower limb	(D)	Trunk
43.	Inflamma	ation of the tongue is known as:		
	(A)	gingivitis	(B)	glossitis
	(C)	halitosis	(D)	angulostomatitis
44.	Mantoux	test is the sensitivity test for:		
	(A)	Allergic disorders	(B)	Tuberculosis
	(C)	AIDS	(D)	Bronchial asthma
45.	The chara	acteristic fever found in Typhoid	is:	
	(A)	intermittent fever	(B)	continuous fever
	(C)	relapsing fever	(D)	step ladder fever
46.	Vastus la	teralis is a site lot	*	
	(A)	intravenous injection	(B)	subcutaneous injection
	(C)	intramuscular injection	(D)	intradermal injection
47.	The differ	ence between systolic and diastol	lic blood pre	essure is known as :
	(A)	Pulse difference	(B)	Cardiac pressure
	(C)	Systolic pressure	(D)	Pulse pressure
48.	Where is	Cardiac sphincture located?		
	(A)	Heart	(B)	Lungs
	(C)	Liver	(D)	Stomach
49.	Tunica ad	ventitia is a layer of :		
	(A)	Testis	(B)	Blood vessels
	(C)	Uterus	(D)	Lungs
50.	Deficiency	of which vitamin causes Scurvy	2	
	(A)	Vitamin A	(B)	Vitamin B
	(C)	Vitamin C	(D)	Vitamin D
38/2	014		8	

51.	The antid	ote of organophosphorous poisoning is :		
	(A)	Adrenaline	(B)	Dopamine
	(C)	Atropine	(D)	Sodium bicarbonate
52.	Which of	the following is a fracture in which bone	e is sh	nattered into numerous fragments?
	(A)	Avulsion fracture	(B)	Comminuted fracture
	(C)	Displaced fracture	(D)	Spiral fracture
53.	Potassiun	n intake is restricted in :		
	(A)	Liver failure	(B)	Cardiac failure
	(C)	Lung failure	(D)	Renal failure
54.	Which of	the following is a risk factor for develop	ment	of breast cancer?
	(A)	No pregnancies	(B)	Early first pregnancy
	(C)	Late Menarche	(D)	Early menopause
55.	Small pai	nful nodes on fingers and toes called Os	ler's	nodes are seen in :
	(A)	Infective endocarditis	(B)	Cardiomyopathy
	(C)	Pericarditis	(D)	Myocarditis
56.	Which is	the most lethal arrhythmia?		
	(A)	Ventricular tachycardia	(B)	Sinus arrhythmia
	(C)	Atrial fibrillation	(D)	Ventricular fibrillation
57.	Classic ba	arrel shaped chest is seen in patients wi	th:	
	· (A)	Congestive cardiac failure	(B)	Pulmonary effusion
	(C)	COPD	(D)	Bronchiectasis
58.		adical mastectomy with lymph node res t lymphoedema?	noval	, which of the following measures help
	(A)	Restricting all movements of the arm	(B)	Raising arm above heart on pillows
	(C)	Warm moist heat application	(D)	Placing arm close to body in sling

59.	The norm	nal adult intracranial pressure is	:	
	(A)	0-15 mm of Hg	(B)	80-100 mm of Hg
	(C)	20-40 mm of Hg	(D)	60-70 mm of Hg
60.	Which of	the following procedure is used t	o correct oto	osclerosis?
	(A)	Myringotomy	(B)	Stapedectomy
	(C)	Myringoplasty	(D)	Mastoidectomy
61.	Which of	the following is a neural tube de	fect?	
	(A)	Meningitis	(B)	Meningocoele
	(C)	Scoliosis	(D)	Encephalitis
62.	Managem	ent of Immune Thrombocytopen	ic Purpura i	s:
	(A)	Radiation therapy	(B)	Bone marrow transplantation
	(C)	Steriod therapy	(D)	Chelation therapy
63.	The age o	f administration of measles vacc	ine is:	
	(A)	3 months	· (B)	9 months
	(C)	18 months	(D)	6 months
64.	Typical ty	pe of play in a toddler is :		
	(A)	Co-operative play	(B)	Associative play
	(C)	Onlooker play	(D)	Parallel play
65.	Normal h	ead circumference of a newborn i	8:	
	(A)	31-33 cm	(B)	33-35 cm
	(C)	30-32 cm	(D)	35-37 cm
66.	Which of t	the following is an activity of unc	lerfive clinic	s?
	(A)	Mid day meal programme	(B)	Child education
	(C)	School health services	(D)	Growth monitoring
67.	"Flag sign	" is a characteristic feature of wl	nich disease	
	(A)	Kwashiorkor	(B)	Rickets
	(C)	Marasmus	(D)	Poliomyelitis
38/2	014		10	

68.	The corre	ctive surgery for Hirchsyprung's D	isease is:	
	(A)	Kosai's procedure	(B)	Duhamel procedure
	(C)	Pyloroplasty	(D)	Pyeloplasty
69.	Current J	elley stool is a manifestation of:		
	(A)	Trachea oesophageal fistula	(B)	Oesophageal atresia
	(C)	Anorectal malformation	(D)	Intussusception
70.	Which of	the following is a cyanotic heart dis	sease?	
	(A)	Coarctation of Aorta	(B)	Atrial Septal Defect
	(C)	Tetralogy of Fallot	(D)	Patent Ductus Arteriosus
71.	Germ the	ory of disease was founded by :		
	(A)	Alexander Fleming	(B)	Hippocrates
	(C)	Louis Pasteur	(D)	William Harvey
72.	The back	bone of Public Health Nursing is:		
	(A)	Home visiting	(B)	Bag technique
	(C)	Primary health care	(D)	Primary health centre
73.	The goal	of "Health for all by 2000 AD" was	mooted in	World Health Assembly in the year:
	(A)	1948	(B)	1957
	(C)	1978	(D)	1966
74.	The three	tier system of Local Self Governm	ent at bloc	ck level is:
	(A)	Gramasabha .	(B)	Panchayath Samithi
	(C)	Zilla Parishad	(D)	Nyaya Panchayat
75.	Which of	the following is observed as Anti M	lalaria Mo	nth?
	(A)	May	(B)	June
	(C)	January	(D)	December
76.	Causative	e organism of Yellow Fever is :		
	(A)	Myxovirus	(B)	Enterovirus
	(C)	Arbovirus	(D)	Rhabdovirus

38/2014 [P.T.O.]

77.	The amount of moisture in the air is recorded with:				
	(A)	Barometer	(B)	Six's thermometer	
	(C)	Anemometer	(D)	Hygrometer	
78.	Mode of s	pread of polio infection is :			
	(A)	Droplet infection	. (B)	Faeco-oral route	
	(C)	Through blood	(D)	Through vectors	
79.	Incubatio	n period of chicken pox ranges from	m:		
	(A)	6-10 days	(B)	14-16 days	
	(C)	20-25 days	(D)	30-40 days	
80.	National '	Tuberculosis Control Programme	was adopte	d in India in the year:	
	(A)	1960	(B)	1962	
	(C)	1964	(D)	1966	
81.	Who coine	ed the term Schizophrenia?			
	(A)	Emil Kreaplin	(B)	Eugen Bluler	
	(C)	Kurt Schneider	(D)	Zigmond Freud	
82.	A false m	emory that the patient believes to	be true is :		
	(A)	Confabulation	(B)	Cataplexy	
	(C)	Anergia	(D)	Fuge	
83.		kind of therapy in which the total e helping process is called:	al structur	e of the treatment unit is involved a	
	(A)	Psychotherapy	(B)	Milieu therapy	
	(C)	Cognitive behaviour therapy	(D)	Gestalt therapy	
84.	Drug of cl	noice for treatment and prevention	of further	episodes of bipolar mood disorder is:	
	(A)	Fluoxetine	(B)	Chlordiazepoxide	
	(C)	Amitryptiline	(D)	Lithium .	

Abnormal	involuntary movement which occu	urs sudden	ly, repetitively and purposeless is:
(A)	Tic	(B)	Mannerism
(C)	Cataplexy	(D)	Compulsion
Fear of hi	gh places is known as :		Marie Marie
		(B)	Xenophobia
(C)	Algophobia	(D)	Claustrophobia
Therapeu	tic level of serum lithium is:		
(A)	$2.5-3.0~\mathrm{mEq/l}$	(B)	0.6 - 1.2  mEq/l
(C)	0.8 - 1.2 mEq/l	(D)	1.5 — 2.0 mEq/l
A false un	shakable belief is :		
(A)	Hallucination	(B)	Illusion
(C)	Delusion	(D)	Derealization
Most seve	re alcohol withdrawal syndrome is	8:	
(A)	Hang over	(B)	Delirium tremers
(C)	Alcoholic seizures	(D)	Alcoholic hallucinosis
A condition	on in which person maintaining th	e body pos	ture into which it is placed is:
(A)	Echopraxia	(B)	Cataplexy
(C)	Anergia	(D)	Catalepsy
Ortolani's	s test is diagnostic in :		
(A)	Respiratory distress	(B)	Congential anomalies
(C)	Congential hip dislocation	(D)	Induction of labour
Attitude	of fetal head in occipito posterior p	osition is :	
(A)	Flexion	(B)	Deflexion
(C)	Extension	(D)	Adduction
	(A) (C) Fear of hi (A) (C) Therapeu (A) (C) A false un (A) (C) Most seve (A) (C) A condition (A) (C) Ortolani's (A) (C) Attitude (A)	(A) Tic (C) Cataplexy  Fear of high places is known as: (A) Acrophobia (C) Algophobia  Therapeutic level of serum lithium is: (A) 2.5 - 3.0 mEq/l (C) 0.8 - 1.2 mEq/l  A false unshakable belief is: (A) Hallucination (C) Delusion  Most severe alcohol withdrawal syndrome is (A) Hang over (C) Alcoholic seizures  A condition in which person maintaining the (A) Echopraxia (C) Anergia  Ortolani's test is diagnostic in: (A) Respiratory distress (C) Congential hip dislocation  Attitude of fetal head in occipito posterior person maintaining the condition of the condition	(C) Cataplexy (D)  Fear of high places is known as:  (A) Acrophobia (B) (C) Algophobia (D)  Therapeutic level of serum lithium is:  (A) 2.5 - 3.0 mEq/l (B) (C) 0.8 - 1.2 mEq/l (D)  A false unshakable belief is:  (A) Hallucination (B) (C) Delusion (D)  Most severe alcohol withdrawal syndrome is:  (A) Hang over (B) (C) Alcoholic seizures (D)  A condition in which person maintaining the body pos (A) Echopraxia (B) (C) Anergia (D)  Ortolani's test is diagnostic in:  (A) Respiratory distress (B) (C) Congential hip dislocation (D)  Attitude of fetal head in occipito posterior position is: (A) Flexion (B)

93.	Morbidly adherent placenta is called as:				
	(A)	Placenta succenturiata	(B)	Placenta circumvallata	
	(C)	Battledore placenta	.(D)	Placenta accreta	
94.	The follow	ving factor is most important in preve	nting fe	etalopen neural tube defects :	
	(A)	Vitamin - A	(B)	Zinc	
	(C)	Folic Acid	(D)	Vitamin – D	
95.	Which out	t of the following is not a feature of pr	e eclam	psia?	
	(A)	Oedema	(B)	Hypertension	
	(C)	Fits	(D)	Proteinuria	
96.	Normal w	eight of placenta at term is:			
	(A)	500 gms	(B)	900 gms	
	(C)	1/4 <sup>th</sup> of baby weight	(D)	1/6th of baby weight	
97.	Hormone	responsible for hyperemesis gravidar	um is :		
	(A)	Progesterone	(B)	Relaxin	
	(C)	Human Chorionic Gonadotropin	(D)	Human Placental Lactogen	
98.	Specific m	anifestation in menopause is:			
	(A)	Hypotension	(B)	Hypothermia	
	(C)	Hot flashes	(D)	Anorexia	
99.	When is fe	ertilized ovum known as embryo?			
	(A)	0-8 wks	(B)	0-12 wks	
	(C)	12-24 wks	(D)	8-32 wks	
100.	Normal w	eight gain in pregnancy:			
	(A)	10-12 kg	(B)	7-9 kg	
	(C)	3-5 kg	(D)	14-18 kg
