

DETAILED SYLLABUS FOR THE POST OF ASSISTANT PROFESSOR GENERAL SURGERY

(Cat.No.: 36/2022)

SYLLABUS FOR THE POST OF

TOTAL MARKS 100

MODULE 1 : ANATOMY AND BASIC PRINCIPLES. [20 marks]

- | | |
|---|---|
| <ol style="list-style-type: none">1. Congenital malformations2. Haemorrhage and blood transfusion3. Stem cells4. Surgical site infections5. Anatomy of stomach6. Anatomy of Liver and Couinaud liver segments7. Metabolic response to injury8. Wound healing9. Suture materials10. Burns11. Anatomy of Anal canal12. Necrotising soft tissue infections.13. Tissue engineering and regeneration.14. Principles of diathermy.15. Immuno histochemistry16. Anatomy of breast and its lymphatic drainage.17. Gas gangrene.18. Mycetoma and typhoid.19. Compartment syndrome.20. Limitations of minimal access surgery.21. Shock and its management.22. Viral infections relevant to surgery.23. Tuberculosis.24. Principles of anastomoses.25. Diagnostic molecular pathology. | <ol style="list-style-type: none">26. Surgical research27. Antimicrobial treatment of surgical infections28. Nutritional assessment29. Anaesthesia and pain relief30. Principles of advanced energy devices.31. Surgical ethics , Informed consent32. Prevention of surgical infections33. Critical care in surgical patients34. Parenteral nutrition35. Postoperative care36. Wound healing and factors influencing37. Management of cancer38. Patient safety and surgeon39. Diagnostic imaging40. Pre operative care and high risk surgical patient41. Surgical audit42. Filariasis43. Principles of microscopic diagnosis44. Fluid and electrolytes management45. Day care surgery46. Evidence based surgery47. Hydatid disease.48. Health care events and patient safety49. Hazards of imaging50. Mediators of metabolic response to injury |
|---|---|

MODULE 2 : HEAD AND NECK.**[20 marks]**

- | | |
|--|---|
| <ol style="list-style-type: none"> 1. Vascular neuro surgery 2. Cleft lip and palate 3. Carcinoma tongue 4. Thyrotoxicosis 5. Primary hyper parathyroidism 6. Head trauma 7. Carcinoma cheek 8. Benign thyroid swellings 9. Parotid neoplasms 10. Branchial cyst 11. Maxillo fascial trauma 12. Hydrocephalus 13. Premalignant conditions of oral cavity. 14. Differentiated thyroid carcinomas. 15. Secondary hyper parathyroidism. 16. Crush syndrome / Triage 17. Oral malignant melanoma. 18. Intra cranial infections. 19. Medullary carcinoma thyroid. 20. Parathyroid carcinoma. 21. Brain tumours. 22. Carcinoma Lip 23. Anaplastic carcinoma and lymphoma thyroid 24. Tertiary hyper parathyroidism 25. Secondary toxic goitres. | <ol style="list-style-type: none"> 26. Brain stem death 27. Carcinoma alveolus 28. Thyroiditis and its management 29. Hypoparathyroidism 30. Chemodectoma 31. Tracheostomy and other emergency air way measures 32. Submandibular salivary gland diseases 33. Investigations of thyroid swellings 34. Recurrent hyperparathyroidism 35. Thyroglossal cysts and fistulas 36. Vocal fold palsy 37. Carcinoma floor of mouth 38. M E N Syndrome 39. Solitary thyroid nodule 40. Neck nodes, Lymphoma, Causes of lymphadenitis 41. Primary tumours of neck 42. Thyroid imaging 43. Subdural haemorrhage , Extradural haemorrhage 44. Modified radical neckdissection[MRND] 45. Papillary carcinoma thyroid 46. Inflammatory conditions of neck 47. Follicular carcinoma thyroid 48. S O N D [Supra omohyoid neck dissection] 49. Infections of salivary gland 50. Glasgow coma scale score. |
|--|---|

MODULE 3 : THORAX, BREAST AND VASCULAR SYSTEM [20 marks]

- | | |
|---|---|
| <ol style="list-style-type: none"> 1. Benign breast diseases 2. Chest trauma 3. Acute limb ischaemia 4. Chronic venous hypertension 5. Primary lymphedema 6. Early Breast carcinoma | <ol style="list-style-type: none"> 26. Advanced breast carcinoma 27. Cardiac tamponade 28. Critical limb ischaemia 29. Congenital venous anomalies 30. Secondary lymphedema 31. Breast reconstruction |
|---|---|

- | | |
|---|--|
| <ol style="list-style-type: none"> 7. Aneurysms. 8. Investigations of venous disorders 9. Flail chest 10. Deep vein thrombosis. 11. Skin tumours. 12. Vascular lesions..Haemangiomas,A V malformations. 13. Locally advanced breast carcinoma[LABC] 14. Cardio pulmonary bypass. 15. Primary tumours of mediastinum. 16. Thoracic injuries. 17. Duct ectasia,Paget's disease of breast 18. Phylloid tumours of breast 19. Mammography 20. Investigations of an arterial occlusive disease. 21. Blast injuries 22. nvestigations of a breast lump. 23. Diabetic foot and ischaemic ulcers of leg. 24. Diaphragmatic hernias. 25. Aortic dissection. | <ol style="list-style-type: none"> 32. Varicose veins 33. Thrombo angitis obliterates 34. Vascular grafts 35. Carcinoma of male breast 36. Thoracic outlet syndrome 37. Pleural effusion 38. Congenital adrenal hyperplasia 39. Fibroadenoma,Breast abscess,A N D I 40. Management of varicose veins 41. Gynaecomastia 42. Aortic aneurysm 43. Pneumothorax 44. Bronchopleural fistula 45. Prognostic factors of carcinoma breast 46. Sarcoma of breast 47. V A T S 48. A V Malformations 49. Pericardial effusion 50. Retrosternal goitres |
|---|--|

MODULE 4 : ABDOMEN AND G I T.

[20 marks]

- | | |
|--|---|
| <ol style="list-style-type: none"> 1. Inguinal hernia 2. Acute pancreatitis 3. Management of intestinal obstruction 4. Abdominal tuberculosis 5. Anorectal abscess 6. Oesophageal disorders 7. Gall stones 8. Haemorrhoids 9. Blunt abdominal trauma 10. Retroperitoneal tumours 11. Phaeochromocytoma. 12. Neuro endocrine tumours of stomach n small bowel. 13. Intussusception. 14. Sigmoid volvulus / Prolapse rectum. | <ol style="list-style-type: none"> 26. Carcinoma rectum and anal canal 27. Pancreatic pseudocysts 28. Calculous cholecystitis 29. Abdominal wall hernias 30. Splenic trauma. 31. Insulinoma,carcinoma pancreas 32. Acute mesenteric ischaemia 33. Adreno cortical carcinoma 34. Ventral hernias 35. Splenomegaly,Hyper splenism, Hemolytic anaemia 36. Gastrinoma ,Gastrc lymphomas 37. Peritonitis,Acute appendicitis 38. F A P , Ulcerative colitis 39. Liver tumours |
|--|---|

<ul style="list-style-type: none"> 15. Perineal hernias. 16. Carcinoma colon. 17. Mesenteric cyst. 18. Femoral and spigelian hernias. 19. Chronic calcific pancreatitis 20. Empyema gall bladder 21. Carcinoma gall bladder / Choledochal cyst 22. G I S T 23. Epigastric and lumbar hernias 24. Fissure in ano 25. Pilonidal sinus. 	<ul style="list-style-type: none"> 40. Hiatus hernias, Motility disorders of oesophagus 41. Intraperitoneal abscess 42. Carcinoma oesophagus 43. Haematemesis and Malena 44. Liver trauma 45. Inflammatory bowel disease 46. Tumours of peritoneum 47. Acute intestinal obstruction 48. Retroperitoneal tumours and conditions 49. G E R D , Gastritis, Helicobacter pylori 50. Liver abscess, Hepatitis
---	---

MODULE 5 : URINARY SYSTEM AND RECENT ADVANCES [20 marks]

<ul style="list-style-type: none"> 1. Kidney tumours 2. Testicular swellings 3. Robotic surgery 4. Liver transplantation 5. Endoscopic ultrasound[E U S] 6. Carcinoma prostate 7. Torsion testes 8. Lap.hernia surgery ...T A P 9. Small bowel transplantation 10. Thoracoscopy 11. N O T E S [Natural orifice transluminal endoscopic surgery] 12. Laparoscopic cholecystectomy 13. Carcinoma urinary bladder 14. B P H [Benign prostatic hyperplasia] 15. Hydrocele /Orchitis. 16. Laparoscopic surgery and its techniques. 17. Damage control surgery. 18. Carcinoma penis. 19. Prostatitis 20. Varicocele. 21. ingle incision laparoscopic surgery[SILS] 22. Laparoscopic anterior resection 23. Epididymal cyst 	<ul style="list-style-type: none"> 26. T E P 27. Laparoscopic appendicectomy 28. Renal cell carcinoma 29. Urethral injury 30. Hypospadias. 31. Tissue expansion, Reconstructive surgery 32. Grafts and flaps 33. Laparoscopic hemicolectomy 34. Renal tuberculosis 35. Neoplasms of urinary bladder 36. T A R 37. Bladder trauma 38. Urinary incontinence 39. Capsule endoscopy 40. Ectopic testes, Undescended testes 41. Vascularised composite allografting / graft rejection 42. P E T Scan, M R Angiogram 43. Stapler haemorrhoidectomy 44. Renal trauma 45. Nephroblastoma 46. Bariatric and metabolic surgery 47. Liver transplantation , Organ donation 48. Haematuria , Bladder stones
--	--

24. Nephrolithiasis and its management	49. Ureterocele, Ectopic kidney, Horseshoe kidney
25. Phimosis and paraphimosis.	50. Tuberculosis of urinary tract

NOTE: It may be noted that apart from the topics detailed above, questions from other topics prescribed for the educational qualification of the post may also appear in the question paper. There is no undertaking that all the topics above may be covered in the question paper.
